| Description                         |   |  |
|-------------------------------------|---|--|
| <i>Stakeholders &amp; Interests</i> | <i>Stakeholder</i>                                  | <i>Interests</i>   |
|                                     | Kitchen staff                                       | Minimizing your own water consumption  |
|                                     | Manager   | Recording and analysis of water consumption; minimization of water consumption |
|                                     | Waterworks technician                               | Minimizing the amount of work  |
| <i>Required Data</i>                | Water consumption in liters/second                  |  |
| <i>Current Conditions</i>           | Current conditions are not presented as an example. |  |

| Procedure                 |  |   |
|---------------------------|--|---|
| <i>Trigger</i>            | An increase in water consumption is recorded.          |   |
| <i>Use Case Procedure</i> | <i>Step</i>  | <i>Activity</i>   |
|                           | 1. Recording water consumption                         | Water consumption has been recorded, and there is an increase.                                  |
|                           | 2. Event transmission                                  | Kitchen staff are informed about the event and receive relevant information to raise awareness. |
|                           | 3. Observation of the rise                             | The kitchen staff looks at the historical course of water consumption.                          |
|                           | 4. Taking measures                                     | The kitchen staff will take measures to reduce consumption if necessary.                        |
|                           | 5. Check measured values                               | The kitchen staff check whether the measures were successful.                                   |
| <i>Use Case Anomalies</i> | <i>Step</i>  | <i>Activity</i>   |
|                           | No information provided.                               |   |
| <i>Final State</i>        | Water consumption continues to rise, stagnate or fall. |   |

| Overlaps   |                 |   |              |   |
